

Sterility Test Pump

EP BP USP JP ChP

HYT- 601

HYT peristaltic pumps are specially designed for pharmaceutical QC labs

FEATURES

1. Compact design - minimizing the required surface area and effectively avoiding testing liquids leaking into the chassis.
2. Operator protection design of pump head
3. Stepless speed adjustment, speed memorizing.
4. With German-made water-proof foot controller.
5. Mirror polished stainless steel surface - easier for cleaning and sanitizing.
6. A separate manifold - more flexible for your operation and easier for cleaning and maintenance.
7. Advanced motor driving system - low power consumption

HTY-V

TECHNICAL PARAMETER

	HTY-601	HTY-V
Power Supply	220V 50Hz	22V 50Hz
Power Consumption	60W	60W
Pump Speed:	0-240 rpm	0-220 rpm
Height of Hanger	37 cm	36cm
Weight	11.5kg	13 kg
Dimension	24X34X10.5cm	41X32X11cm
